

$$= 1723$$

$$1723 / 2 = 861,5$$

$$861,5 - 15/2 = 854$$

$$854 / 307 = 2,7817589577$$

$$307 \times 0,7817... = 240 \text{ mm}$$

$$+ 307 = 547$$

$$854$$

it's works
even amount
Okay for

$$854 - 307 \times 2 =$$

240 same!!

1161

1468

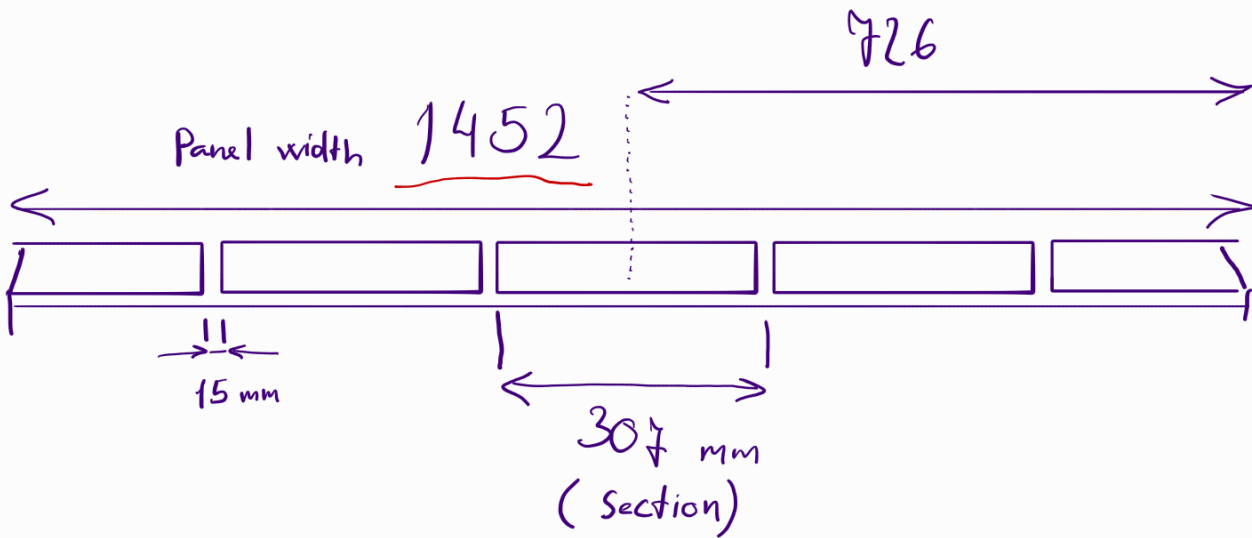

$$1468 + 240 + 15 = 1723$$

last piece

GAP

$$1452 / 2 = 726$$

$$726 - 15/2 = 718,5$$

$$718,5 \times 2 = 1437$$

$$718,5 - 307 \times 1,5 = 250$$

$$+ 307 \quad 565$$

$$\dots \quad 872$$

$$1179$$

$$1179 + 258 - 15 =$$

$$1452$$
